

Kai Jaeger
38 Cotswold Drive
Stevenage
Herts SG1 6GT

Reference Letter

Dyalog has worked with Kai for over 25 years and in that time we have come to know him as an extremely competent APLer, with an excellent understanding of the features of Dyalog APL in particular.

Kai is highly organised, methodical and always fully committed to the job in hand, determined to do the best job possible. He is well known for basing applications upon a solid foundation of tools and utilities – many of which have been placed in the public domain at <http://aplwiki.com>.

He is an advocate of APL, and has always worked in close contact with both the support and development teams at Dyalog, always keen to help improve our product with constructive feedback. He is a regular presenter at Dyalog's user meetings, and always gets an enthusiastic response from the attendees of his presentations and workshops.

Morten Kromberg
Director
Dyalog Ltd.
